

## Average Food Waste Per Person

The above graph illustrates findings from food waste studies conducted each year since Anderson Commons opened during fall 2007.

# Average Waste Comparison

The average waste per person without trays includes four studies conducted from fall 2007 to spring 2009.

Trays were removed fall 2009 and six studies have been conducted since that time.

Since removing trays from Anderson Commons in 2009,  
Dining Services has saved an average of  
63.53 pounds of food each meal period.

Based on an average of 1,225 people per meal period.
